

IPCA Expo—focus on PCB sector

In 2019 the 12th edition of IPCA Expo will be co-located with electronica India, productronica India and Smart Cards Expo from September 25-27 in Greater Noida.

This new alliance between the Indian Printed Circuit Association (IPCA) and Messe Muenchen India, supported by ELCINA, will bring together the latest manufacturing technologies and trends in the PCB sector.

The Indian Printed Circuit Association (IPCA) and the IPCA Expo promote state-of-the-art PCB technology and business in India by mutual exchange of ideas and technical interactions.

Indian Printed Circuit Association (IPCA)

- ✓ The Indian Printed Circuit Association (IPCA) is a voluntary, non-profit, service-oriented professional organization comprising leading technical experts of PCB manufacturing in the country. Its primary objective is to promote learning and the advance education in the science and application of electronic packaging, namely printed circuit and interconnection techniques.
 - ✓ IPCA is the only association representing the interests of the PCB manufacturers and users in India. It is recognized by the **government of India**, the **Department of Electronics and Information Technology (DeitY)** and the **Governing Council Member of Electronic Sector Skills Council of India (ESSCI)**.
 - ✓ Since 1998 IPCA enjoys the complimentary membership of **IPC, USA**. IPCA is member of the **World Electronic Circuits Council (WECC)** and represented in all its international council meetings to stay in close association with the other world PCB associations like **CPCA, EIPC, TPCA, KPCA, JPCA** and **IPC**.
